## MASK GUIDANCE UPDATE

ADRS follows the workplace guidance provided by the CDC and the AL Department of Public Health.

Effective March 1, 2022:

1. **ADRS staff will continue to wear a mask** anytime in-person services are being provided for consumers.
2. **ADRS local staff will track changes by the CDC** to their counties' COVID infection rates to determine if masks are required in ADRS offices.
3. **ADRS offices that are deemed “high risk”** by the CDC will continue to require masks in ADRS offices.
4. **Individuals with symptoms or exposure** to someone with COVID-19 should wear a mask and consult their healthcare provider.
